

# **IMAGINE**

## **A WORLD WHERE...**

**We imagine a world where everyone is free to BE human.**

**A world where we resist the ideology that some groups are more human and worthy than others.**

**A world where the cornerstone of all our interactions are centered in empathy, radical candor, and love.**

**A world where racism, inequity, and harmful systems no longer exist.**

**A world where leaders and institutions are held accountable to correcting past harms and producing equitable outcomes for all.**

**We imagine a world where we center humanity in all we do.**

**Our Mission is to BE possibility for the clients & communities we serve.**

**We do so by living our values and intentionally embodying equity and justice in our systems at BE, as we partner with committed organizations on the journey to do the same.**
